John and Mary are from Sweden. Last year, they went on holiday to Spain. One night, they went out for their dinner. They looked for a good restaurant. Outside one restaurant, they saw a man and a woman. The man looked cool and he smiled. John and Mary greeted him and he answered them in Swedish, their language! They asked the man if it was a good restaurant. He recommended it and said it was excellent! He said it had the best food in Spain. John and Mary trusted the man because he was from their country and they went in. They sat at a nice table beside the window. They ordered paella. The waiter brought their dish. It was **terrible**! There were only two small **prawns** in it, the chicken was undercooked and the rice was sticky and horrible. Also, the water was warm. At the end of the meal, the waiter gave them the bill. It was very big! When they left the restaurant, the Swedish man was still there. John and Mary told him he was wrong about the restaurant; they said it was terrible, really awful! They asked him: 'Why did you recommend it? "Because I am the manager, he answered.

Mona loved watching the sky at night. It shined with so many stars. Sometimes, she would climb onto her dad's shoulders. She'd feel like a princess, sitting closer to those stars. One afternoon, her dad said, "We're going to the beach! Won't that be fun?" Mona wasn't sure. "Will my stars be there, too?" "Maybe," Dad said. So they went to the beach. But it was foggy that night – no stars in sight. "Let's see what happens tomorrow," Dad said. "Okay..." Mona frowned. The next morning, they went back to the beach and Mona gathered seashells. Mona found something strange. It looked like a big, orange, bumpy star. Had it fallen from the sky? And why wasn't it glowing? "It's not a star." Dad smiled. "It's a starfish. It lives in the ocean." Mona put the starfish in the ocean. They watched the waves wash it back home. Then Mona looked for more starfish. She liked stars and starfish.

Concorde, the world's fastest passenger plane, was developed by France and Britain together. They both dreamed of having a supersonic plane, and the project started in 1962. They have spent £1.5 billion on developing the Concorde, and it was tested for over 5.000 hours. The first passenger plane was introduced by British Airways and Air France in 1976. The Concorde holds many world records, including the fastest crossing of the Atlantic Ocean from New York to London, which was achieved in 2 hours 45 seconds! Flying at twice the speed of sound means that flying time was reduced by half, which is why the Concorde flight between London and New York is used a lot by business people and film stars - you can leave Britain at 10:30 am and arrive in New York an hour earlier! Twenty planes have been built up to the present day. But there are no plans to build any more. Each plane is produced at a cost of £55 million, which makes them very expensive! They stopped using Concorde aircraft in 2003.
